

Laval, Quebec – August, 31 2017 – Uniboard Canada Inc., a leading North American manufacturer of engineered wood products, is proud to announce the appointment of Atlantic Plywood Corporation as a full line distributor of its TFL, particleboard and MDF panels for the Northeast US region. Atlantic Plywood, with nine distribution facilities, is considered to have the leading industrial distribution position in the region.

“We have invested heavily in our thermally fused laminate (TFL) products portfolio and in our manufacturing facilities over the last three years and we believe we have the best TFL panel package in the North American market today in both finishes and print designs,” said Don Raymond, Uniboard’s Vice President Sales for US. “We are proud that Atlantic Plywood, as a top distributor in our industry, has chosen Uniboard, confirming Uniboard’s forefront TFL design position. This renewed partnership will further strengthen Uniboard’s and Atlantic’s presence in this market and take the lead in TFL sales.”

“We are extremely excited to be on board with Uniboard,” said Paul Vella, President of Atlantic Plywood. “Uniboard’s melamine colour and texture palette is simply outstanding and is made in North America for North America. Atlantic Plywood, as the market leader, needs to be aligned with the best TFL products available in the market. Our team is excited and ready to start promoting Uniboard’s products across our entire distribution network.”

Headquartered in Woburn, Massachusetts, Atlantic Plywood operates nine distribution facilities located in Connecticut, Maine, Massachusetts, New Jersey, New York, Rhode Island and Vermont. Atlantic Plywood offers a complete line of engineered panel products and accessories such as TFL, HPL, particleboard, MDF, hardwood plywood, adhesives, hardware, and edge tape.

Please join us in welcoming Atlantic Plywood to the Uniboard Team.

#### About Uniboard®

Uniboard Canada Inc. is a leading North American manufacturer of engineered wood products, having an installed capacity of over 660 million square feet of raw particleboard, high and medium-density fiberboard, of which over 50% is converted into value-added thermally fused laminate, laminate flooring, engineered flooring and rigid core flooring products. Its mills are located in Val-d’Or, Sayabec, Mont-Laurier and Laval and employ over 850 people. Uniboard’s products are sold to retailers, distributors and finished goods manufacturers, which cater to the kitchen cabinet, furniture, office, home renovation, construction and floor covering industries. Uniboard is renowned for having one of the most extensive product portfolios of engineered wood products in North America, ranging from deep embossed and synchronized TFL textures to ultra-light MDF. Uniboard, the innovator in decorative composite wood products, has been redefining wood for 35 years. For more information, please visit: [www.uniboard.com](http://www.uniboard.com).
